DISPOSAL OF PAINT Waste paint can create problems if not disposed of correctly. The information on the back of the cans will help you to assess the right amount of paint for your job. If you have any usable surplus, offer it to friends or community groups who may be able to use it. Do not empty paint down drains. Dispose of in a safe manner, dried out empty containers may be put in the dustbin.

For technical reasons connected with the printing process, the representation of the colour on the image pages may not exactly match the paint colour in the can. The chip-mounted colour chips on the centre page will be much more accurate but slight variations between batches of paint may occur. Where more than one tin of paint is required, check that batch numbers are identical and if not, intermix before use.
